

THIRD YEAR ENGINEERING DESIGN PROJECT ASSESSMENT FORM

Student Name 1	Mogao Serumula	Student Name 2	Nduvho Ramashia	Group No.	58
Student Number 1	1720010	Student Number 2:	1490804		

Rating	General Interpretation	Overall Assessment:
Deficient	One or more major flaws.	
Acceptable	No more than minor flaws, otherwise complete; no distinguishing features.	
Good	Shows insight; some distinguishing feature(s).	
Excellent	Exceptional insight and multiple distinguishing features.	

	Outcome statement	Deficient	Acceptable	Good	Excellent	Supporting evidence
Phase 2	Mark (%): 64					
5%	Simulations (circuit diagram, completeness, accuracy, calculations)	x				Cap size calculation not correct, partner not present(1720010), no simulations.
5%	Prototype (Quality of construction)			x		
10%	Demonstration (Performance under test, comparison with simulation results)		x			
5%	Report (technical communication, clarity, concise, results presentation, circuit diagram, specifications)			x		

Phase3	Mark (%):					
15%	Simulations (Circuit diagram, completeness, accuracy, Analytical calculations)					
5%	Prototype (Quality of construction)					
30%	Demonstration (Performance under test, comparison with simulations results)					
15%	Report (technical communication, clarity, concise, results presentation, circuit diagram, specifications)
