University of the Witwatersrand

Degree yet to be acquired

BSc Applied Physics and Mathematics (2019)

University of South Africa

Currently put on hold

BSc Electrical and Information Engineering (2020-)

University of the Witwatersrand

Degree still to be acquired

EXPERIENCE

Lecturer Assistant (2020)

University of the Witwatersrand

Worked to improve coming year lecture material as well as making sure the planned laboratories had no issues. My other main role was testing and analysing the new proposed microcontrollers to be used by the school in the future.

Teaching Assistant (2021)

University of the Witwatersrand

My role was assisting groups and individual students with course (ELEN2006 - Microprocessors) concepts they found unclear. This also included assisting with course software stack setup as well as (Assembly) code debugging.

Roads-Rivers Crossing Investigation - Volunteer (2021)

Data for Municipal Infrastructure Assets (Data4MIA)

My team was responsible for accessing the roads-rivers crossings in the Fezile District, in Free State, identifying their well-being, marking them giving them repair priorities.

SKILLS & TOOLS

C++

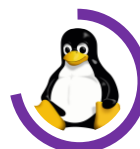

Matlab

Git

Python

Linux
